

HUY LONG AN

Nuôi trồng tận tâm. Kiến tạo niềm tin

HUY LONG AN - MY BINH CO., LTD

COMPANY PROFILE

OPEN LETTER

Dear Valued Customers and Partners, Huy Long An extends its respectful greetings and heartfelt thanks to all our customers and partners who have supported us throughout our development journey. Huy Long An Co., Ltd. - My Binh is currently engaged in the agricultural sector, established with the mission to serve customers, carrying with it the belief and aspiration to develop alongside Vietnamese agriculture. Founded in 2015, Huy Long An has expanded its scale both domestically and internationally over time, building a reputable brand in the market. We have successfully established the Huy Long An farm, aiming to become the leading modern and sustainable farm in Vietnam. Huy Long An is committed to adhering to environmental protection principles and delivering high-quality products to our customers. We look forward to continuing our cooperation and partnership with you to provide sustainable and high-quality agricultural products. Thank you very much!
Sincerely, Huy Long An Co., Ltd. – My Binh

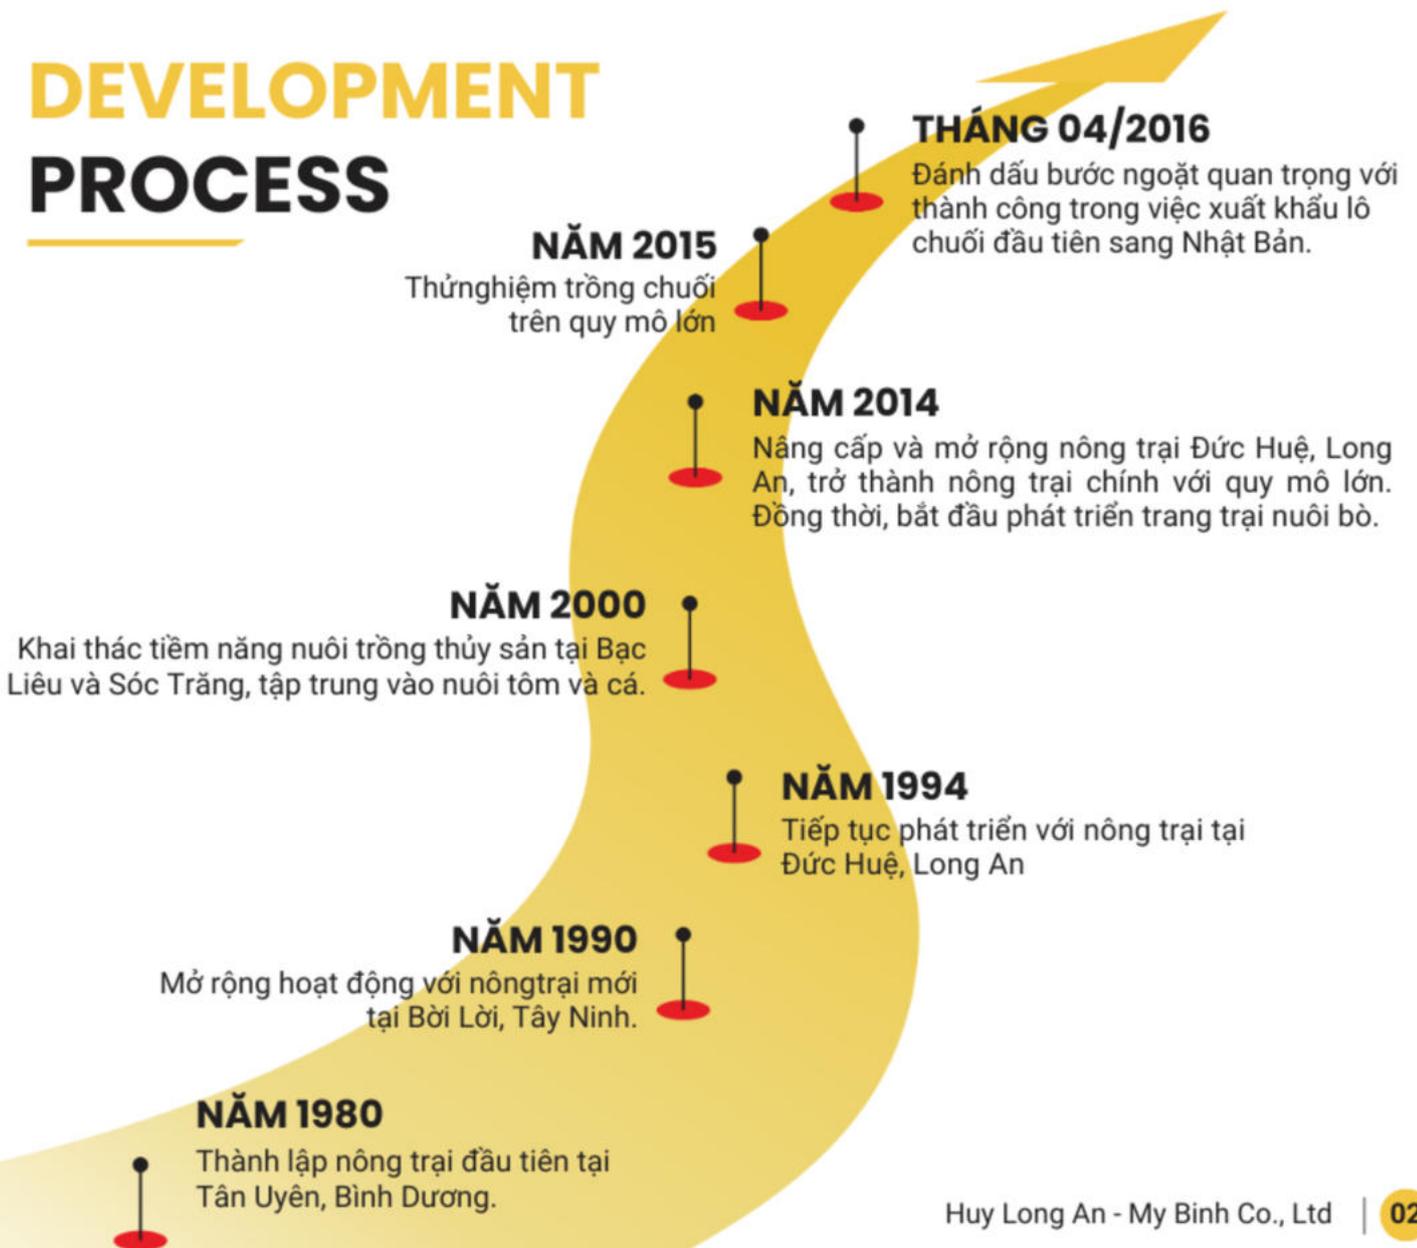

COMPANY INFORMATION

Huy Long An - My Binh Co., Ltd. is located at Hamlet 3, My Binh Commune, Duc Hue District, Long An Province, represented by Mr. Vo Quan Huy. The company operates in the agricultural sector and is a large-scale enterprise in the province, specializing in fruit cultivation, livestock farming, buffalo and cattle breeding, meat and vegetable processing, and organic fertilizer production. Huy Long An owns a farm system that develops agriculture following the "Garden - Pond - Barn" industrialized production model. The main products of this model include bananas, shrimp, and cattle, which are prioritized for development under the Green - Clean organic agriculture orientation. Our flagship product is FOHLA fresh bananas, a South American Cavendish variety. These bananas are cultivated on more than 700 hectares across Long An, Tay Ninh, Binh Duong, and Dong Nai provinces. With an annual output of 30,000 tons and organic farming methods, FOHLA bananas meet the strictest requirements of the Japanese and Korean markets. Huy Long An also supplies and distributes green-skinned pomelo, mangosteen, Australian imported cattle, and shrimp to serve the domestic market.

DEVELOPMENT PROCESS

VISION

Huy Long AnFarm is committed to becoming a leading enterprise in Vietnam in the field of GREEN - CLEAN agriculture production. We aim for sustainable development by providing high-quality goods and ensuring professional services for our customers. Contributing to the sustainable economic development of agriculture and rural areas.

MISSION

We proactively develop and perfect the model of a standard farm economy following the industrialized Garden - Pond - Barn (VAC) production model, a benchmark in closed-loop agricultural production. We actively promote Vietnamese agricultural products to participate in the international market. Driven by the desire to improve the quality of life for Vietnamese people and integrate with global trends, Huy Long An - My Binh Co., Ltd. strives to expand connections and increase the value chain of agricultural products through modern technology and optimal solutions to meet all the expectations of domestic consumers and the international market.

CORE VALUES

Quality - Safety: Strict quality control processes for each product. Ensuring products meet high standards and are safe for health.

Social Responsibility: Actively contributing to community development. Building Vietnam's agricultural economy and improving people's lives.

Innovation - Creativity: Applying advanced technologies to enhance production efficiency. Always aiming for innovation and creativity.

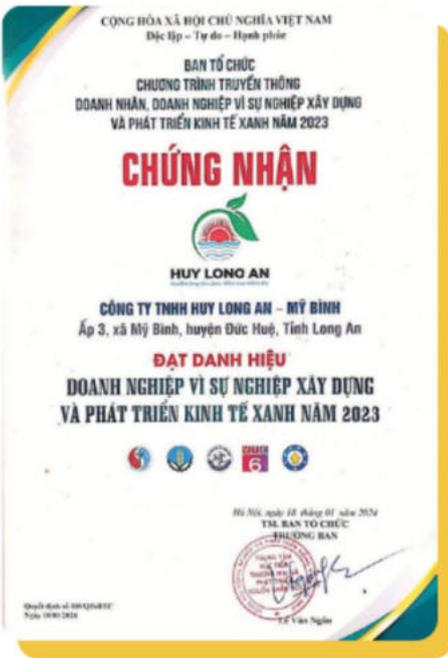

Vietnamese Brand: Promoting Vietnamese agricultural products and affirming the company's reputation in both the domestic and international markets.

Environmental Protection: Implementing organic, environmentally - friendly farming practices to protect the ecosystem for sustainable development.

LEGAL BASIS

The company was granted the High-Tech Agriculture Enterprise Certificate No. 2018.007 by the Ministry of Agriculture and Rural Development on May 4, 2018. Additionally, the company received the Food Safety Chain Certificate from the Ho Chi Minh City Food Safety Management Board on May 27, 2022.

Land Area:	120 hectares
Workforce:	100 people
Investment Capital:	5 million USD
Volume:	700 tons/year
Market:	Domestic

FARM SYSTEM

Huy Long An's farm system is developed according to the industrialized Garden - Pond - Barn (VAC) production model. With over 40 years of experience in cultivation and livestock farming, Huy Long An has established its position in the provinces of Long An, Tay Ninh, Soc Trang, Binh Duong, and Dong Nai, with nearly 1,000 hectares of cultivated land.

The three main products—bananas, shrimp, and cattle—have been carefully selected and developed by Huy Long An under the "Green - Clean" organic agriculture orientation, committed to delivering high-quality and health-safe products to the community.

A key highlight of Huy Long An farm is the optimal application of advanced domestic and international technologies to develop crops on a closed-loop system, effectively utilizing products from aquaculture and livestock farming. This is the VAC industrialized production model, which not only increases productivity but also ensures environmental safety.

We continuously strive to improve working conditions and encourage creativity in the production process to achieve a balance between economic efficiency, social benefits, and a sustained commitment to environmental protection.
